PROBLEM STATEMENT

Who

Designed for casual museum visitors, teen history learners and families visiting Kelsey Museum. Most users find traditional exhibit labels dull and lack engaging ways to learn Roman history.

Why

Inspired by the classic Pokémon Pokédex gameplay, we turn boring artifact browsing into a collection-driven adventure. Help visitors explore historical information interactively instead of passive reading.

What

A mobile AR collection app working like a museum Pokédex. Users scan real artifacts to “catch” relics, view rotatable 3D AR models, collect items gradually, and unlock exclusive Roman daily-life comics after full collection.

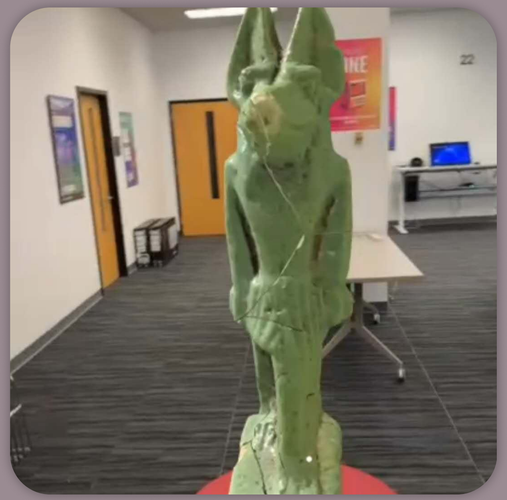

SCOPE

1. Launch Kelsey Dex, your museum artifact Pokédex & follow pop-up in-game guides. Find the artifacts realted your selected character

2. Catch real-world relics via scanning to unlock hidden historical lore.

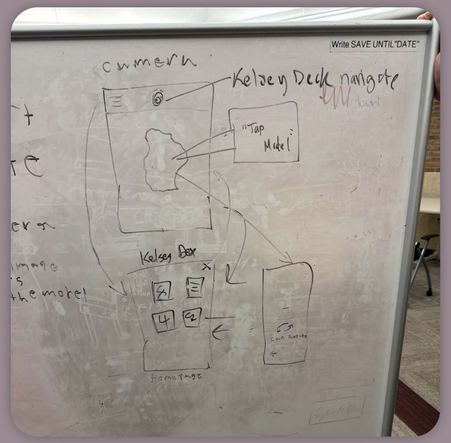

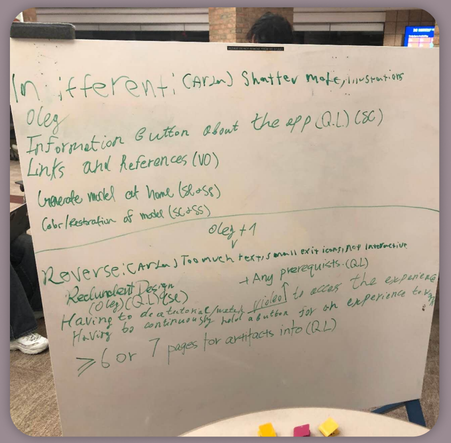

3. Play with the 3D model and experience the AR prototype

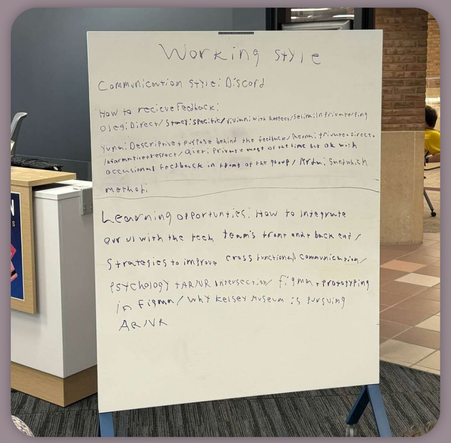

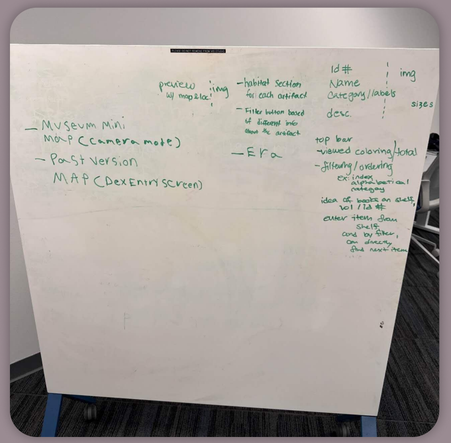

4. Got all artifacts and unlock the character’s daily story comics

DISCUSSION

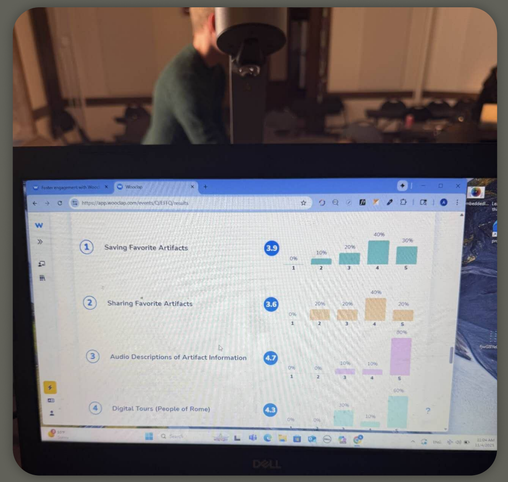

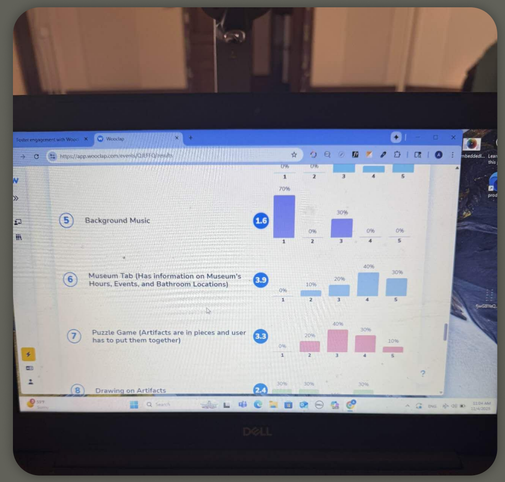

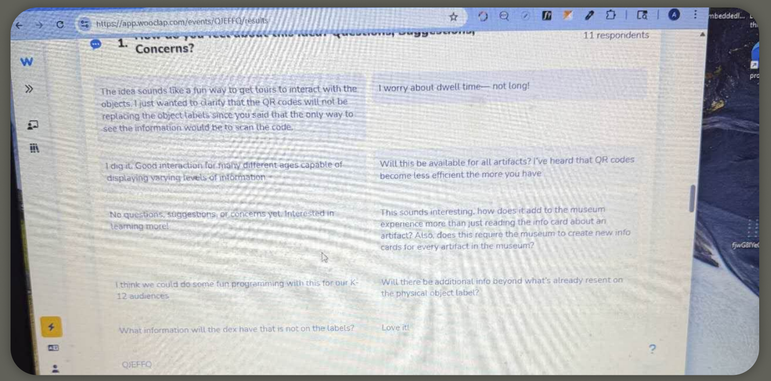

Create the sketches and prototypes with teammates (4 designers)

INTERVIEW

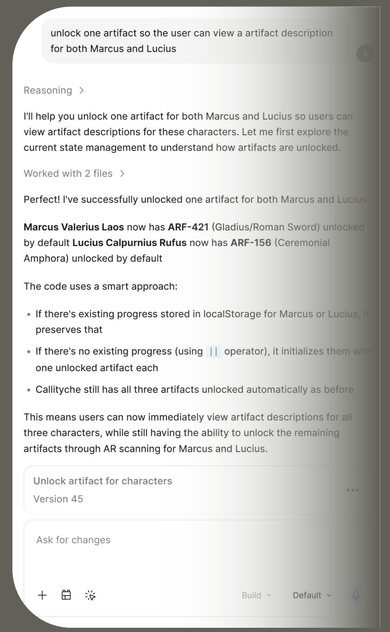

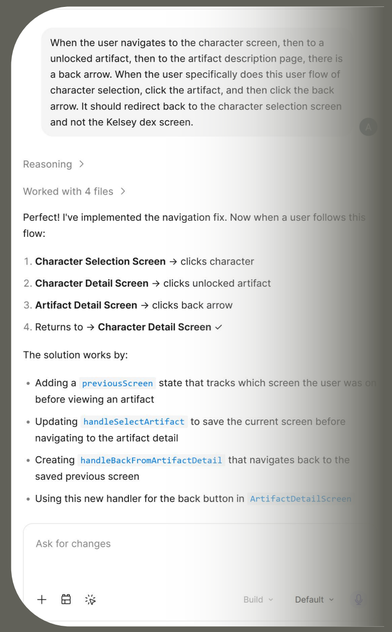

Conduct user interviews with museum stakeholders to refine the Pokédex-style collecting gameplay experience.

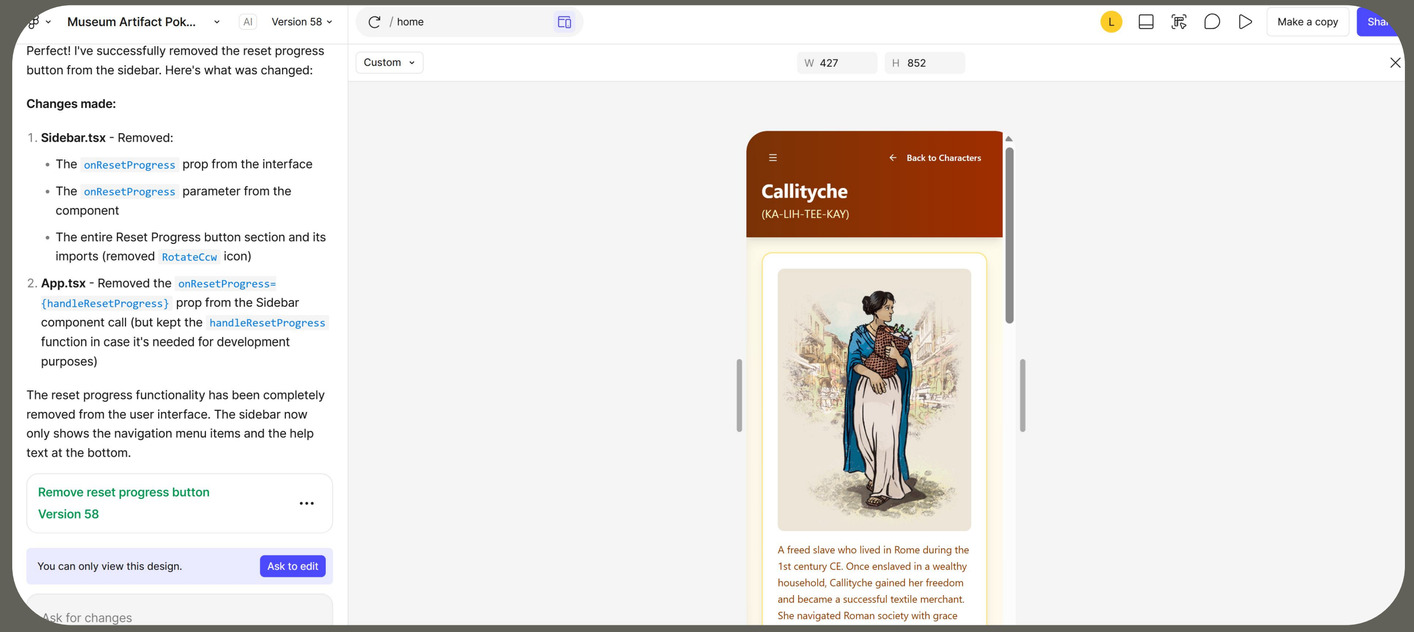

USE OF AIGC TECHNOLOGY AND 8TH WALL

The design used technology of AIGC. We used Figma make for creating the website prototype and codes of front end.

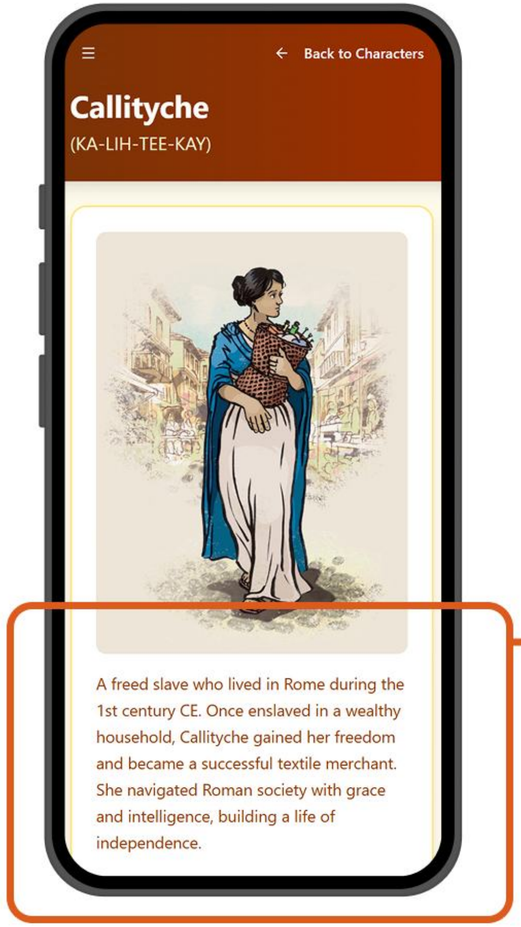

And we used the 8th wall platform for creating models of artifacts and the back end of the app

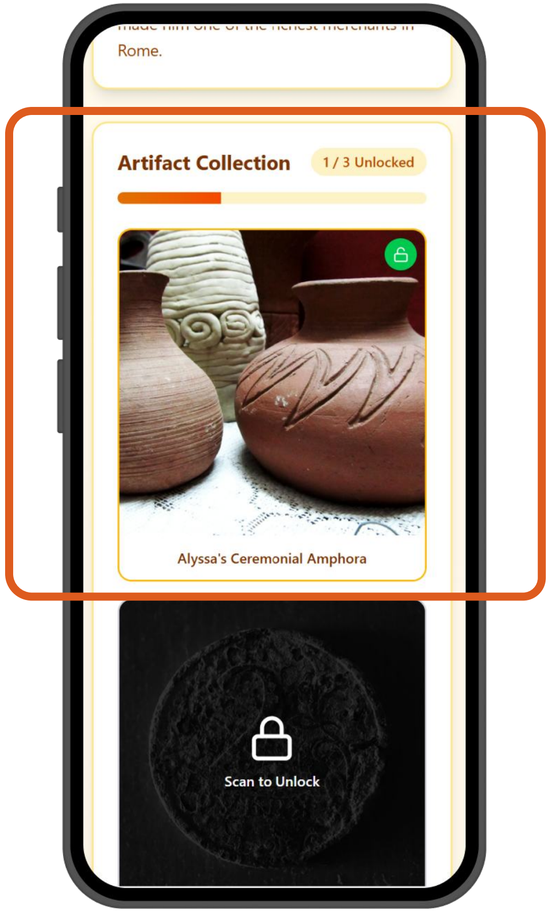

Prototype

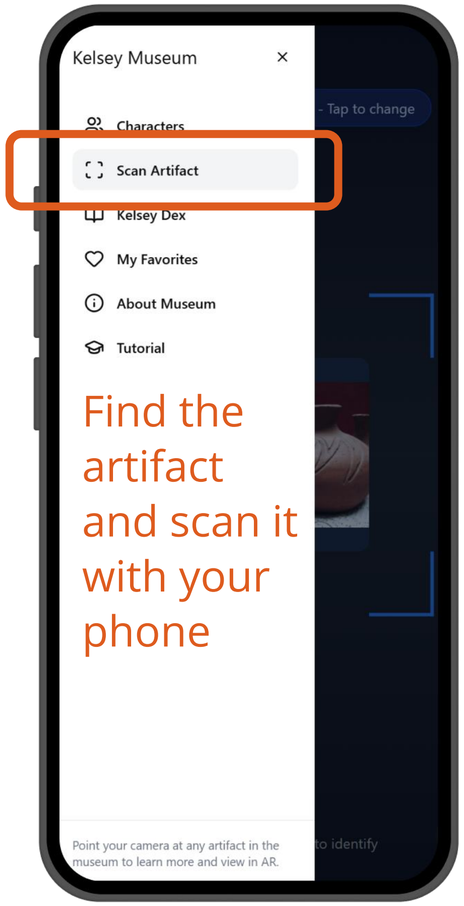

Find out the character behind these artifacts and be ready to unlock the comic of her life story

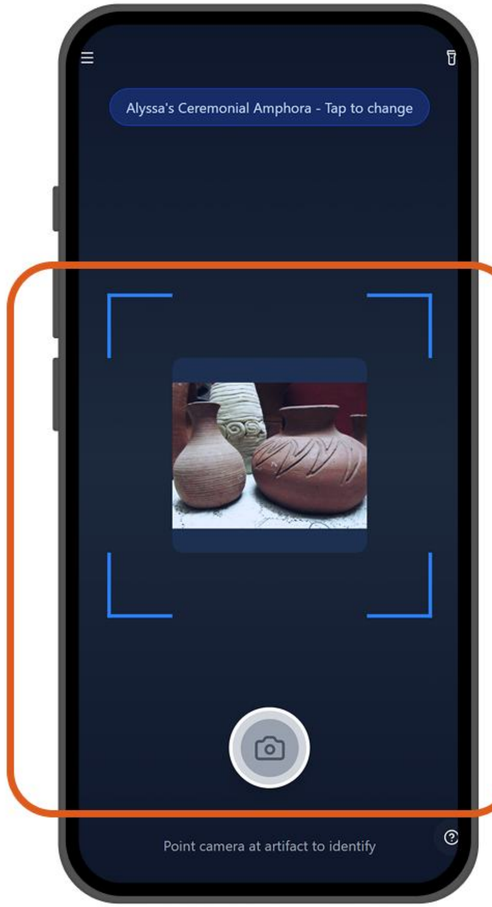

Follow the tips of related artifacts beyond the character and find them in the exhibition

Prototype

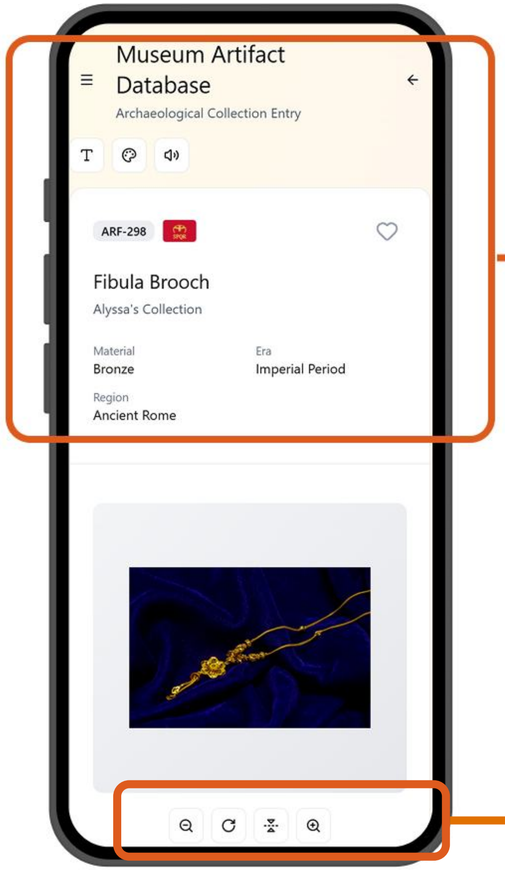

Find the artifact and scan it with your phone

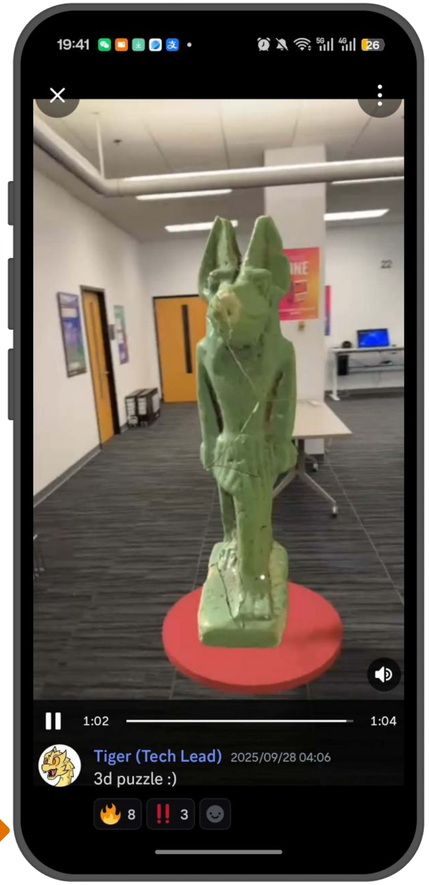

Scan the artifacts to unlock the introduction and characters

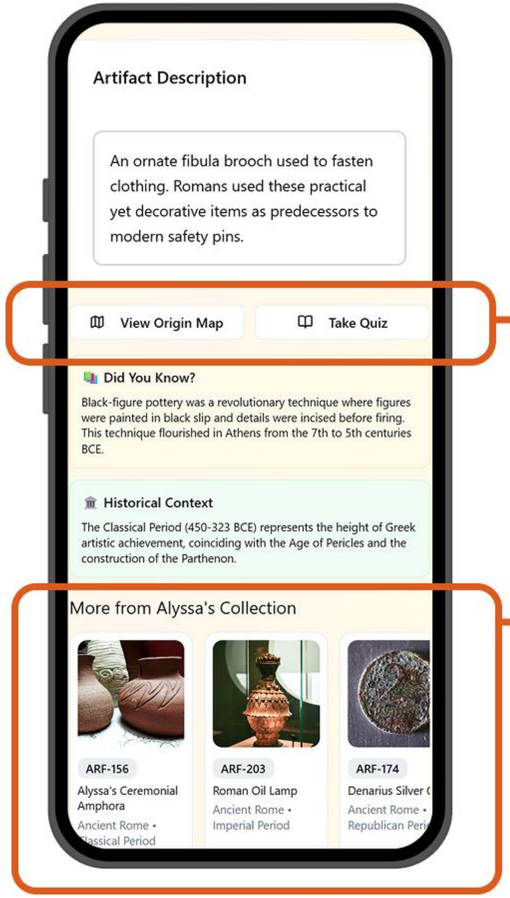

Prototype

Load the artifact's information

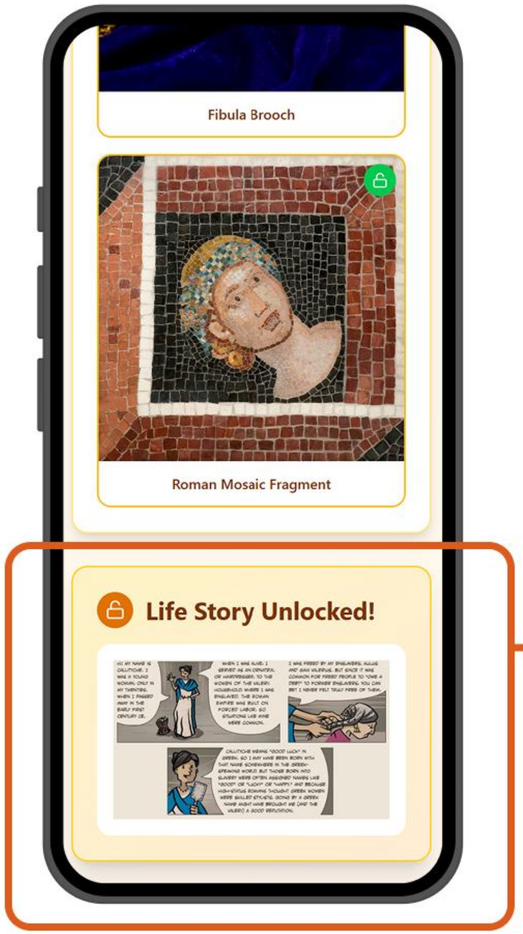

Play with the AR experience of artifacts

Find out where the artifact was from and take quiz to review what you learned

Follow these tips to unlock more related artifacts and learn the story behind.

Prototype

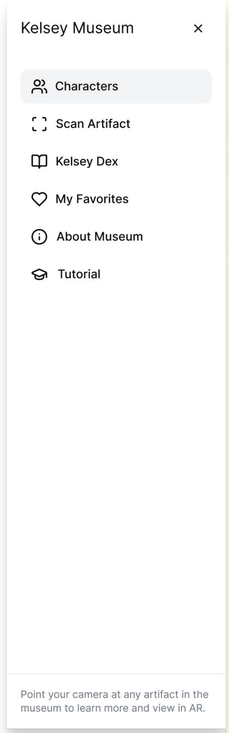

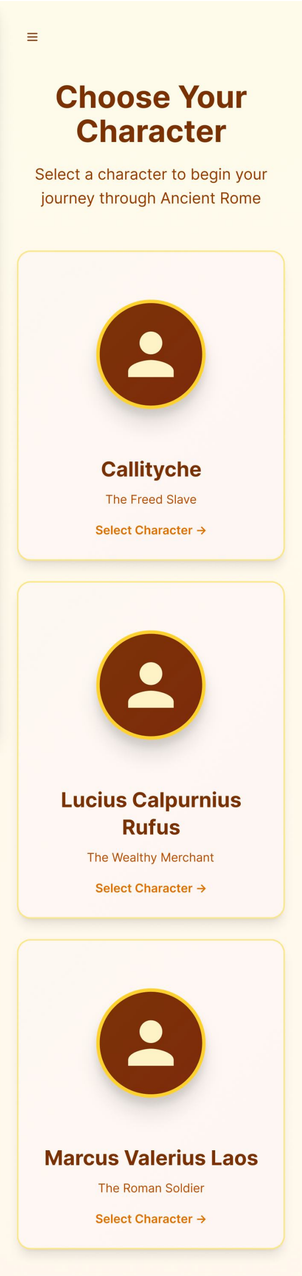

Unlock the life story

After unlocking all artifacts of one Callityche, scroll down to the hidden prize at the bottom.

More characters are waiting to be unlocked!

Enjoy your Pokemon journey in the museum!
